## Property Description

Country house for sale in Calvià, Mallorca

Mallorca was recently described as the pearl of the Mediterranean. There are a lot of things we love about Mallorca and this house is of no exception. You will not only see the beauty and charm this house has to offer but upon entering this home, I promise you, you will feel it too.

Taking the small steps inside the ancient wooden doorway is when you are enveloped into a feeling that can only be described as “when time stands still.” Allowing you to take a moment and enjoy the sights and details of how the courtyard is decorated and with every attention to detail being taken care of.

The house is perfectly divided offering a wonderful use of its spaces. The house is best described as being split into two joining wings. Internally on the left as you enter the house from the courtyard you have access to four double bedrooms of which all are en-suite and on the right hand side of the house we have a spacious and bright open plan living room with dining and kitchen area. This living / kitchen area gives way through various large doorways to a south facing sun flooded terrace complete with swimming pool and outdoor dining area overlooking the garden and surrounding area. As you enter the lower area of the ground and accessing the main garden there off road parking for two or more cars and also here you will find another large dining area equipped with outdoor kitchen and BBQ.
