Property Description

Country house for sale in Pollençà, Mallorca

A restored, Mallorcan farmhouse set in a natural environment. The property is a typical Finca style, currently on the market and has a licence for holiday rentals.

The house is near Pollensa and Alcudia's fringes. The beaches are accessible by car in ten minutes.

The entire property is fenced in, and a gravel approach that ascends to the private parking space next to the home is gated off from the winding country road.

The expansive living room features a sizable open-concept living and dining space with a decorative stone fireplace.

A breakfast area is included in the fully functional kitchen. You can reach the fantastic indoor BBQ area from here. There is plenty of room in this area for a large group of friends and family to dine together. The terrace and pool are also accessible from here.

There are a total of 4 bedrooms. The master bedroom features an en suite bathroom. One bathroom is shared by two double bedrooms. The BBQ area also leads to a second, smaller bedroom with a shower.

Beautiful gardens and patios surround the property. A garage and storage space are also present. The residence is heated and air conditioned.
