Property Description

New Build 5 Bedroom Apartment in Port De Pollenca

A spacious new-build first-floor apartment situated in one of Puerto Pollensa's most sought after neighbourhoods, "Boquer," just a short stroll from the town's centre and the beaches.

The apartment was recently constructed with high quality components and finishes. With five bedrooms and five bathrooms, a large living/dining area leading through sliding glass doors directly onto the balcony, which looks out over the pool, this is a great space to enjoy with family and friends. All necessary appliances are installed in the fully equipped kitchen, which is ready for use.

Underground parking comes with the apartment and all the community is gated off from the exterior and can only be accessed using the codes given to residents.
